# About me

**A** Professional, dynamic Interior Designer who creates and provides best possible solutions for clients via creating great, functional and unique interiors.

*It is not about ideas.  
It is about making ideas happen.*

*"Design is thinking made visual"*

## Mission

I aim to become the first choice for the client having the ability to handle and support all types of residential commercial projects in design, consultation and all Related details.

## Vision

To provide the best possible design and finishing solutions for the client considering the environmental awareness and sustainability to keep up the best of design trends.

## Scope of work:

- Research, project analysis and site visit.
- Proper design offer.
- Brain storming and creating concept boards.
- AutoCAD 2D plans and elevations .
- 3D perspectives.
- Detail drawings.
- Project Management & team supervision.
- Materials selection and supply.
- Furniture selection and supply.
- Lighting and other accessories selection and supply.
- Site supervision during execution.
